

## Sydney Omadio

Sydney Omadio explores her abilities in the wonders of life. She explored and visually recorded many identities, presenting a range of aspects of her creativity, style, and personality. Her art is meant for artistic exploration, self-expression, and showcasing a person's complexity through the lens of photography. Throughout the process many roles, feelings, and styles were explored in order to provide a visual story that transcends a single, constant self-image of someone she doesn't recognize.

Sydney Omadio was born and raised in Sibalom, Antique, Philippines. Throughout the years growing up in the U.S, she developed an interest in art. Starting with drawing to painting, she expanded her work with various mediums. However, Photography has been her focal point as an artist, where she experiments and learns how to become a Photographer in her eyes, forcing her to explore and discover the fantasy and reality of the world. She also loves to play video games in her down time, mostly *Red Dead Redemption* and *Apex Legends*, where she ultimately got the inspiration to explore the unknown in her reality.

*Step Ahead of You* , Digital, 10x10", 2023
